Moodle course: <https://lms.hs-pforzheim.de/course/view.php?id=6210>, key: IMS

Due to the COVID-pandemic, changes might occur

Summary

The focus of this course is on international management skills development. You are asked to engage with the course tasks actively and in groups.

Learning Objectives

- Students develop their International Management Skills
- Students know how to work in virtual teams (globally, cross-culturally, locally)

Course outline

The IMS course begins in July 2022 and has two phases:

- a remote phase (01 July 2022 - 19 September 2022, part-time) which you can self-organize and complete during your internship and/or study semester abroad.
- a workshop phase (Monday, 26 September – Friday, 30 September, full-time). Reserve full days, including evenings and Saturdays, until course planning has been finalized.

You need to pass both phases to pass the IMS course.

Remark: The IMS workshop phase and the course "Wissenschaftliches Arbeiten" (for which you need to register separately) are one course module: you need to attend both parts and cannot split them.

Course Intended Learning Outcomes /

Contribution to Program Intended Learning Outcomes / Program Goals

	Learning Objective	Contribution
5.2	Students demonstrate their oral communication skills in presentations and lectures.	Students facilitate interactions and present in class.
6.	Students show that they are able to work successfully in a team by performing practical tasks.	Students engage in group work
7.1	Students show that they have relevant knowledge and methodological expertise in international management and engineering. (WI Int.)	Students apply IM / CCM knowledge and methodologies
7.2	Students have the ability for analytical and critical reflection and for developing solutions for problems in international management in engineering. (WI Int.)	Students apply analytical and critical thinking to current IM / CCM problems
7.3	Students show that they are able to apply their competencies of international management in engineering in practical cases. (WI Int.)	Students apply intercultural management tools and evaluate them.

Teaching and Learning Approach

Problem-based learning: It is what you *do*, how you learn.

Literature and Course Materials

Available via e-learning

Assessment

Contribution in class and assignments (remote phase *and* workshop phase).

Full participation in all course phases is mandatory

Grading (this is a pass / fail course):

based on quality of contribution and assignments

- “bestanden” represents sufficient work (pass)
- “nicht bestanden” represents insufficient work (fail)

Schedule

Available via e-learning

Academic Integrity and Student Responsibility

Students need to engage in course tasks actively and develop own contributions (individually / team)
